The Eclectic

Nature Of Stone

M U L T I P L E S A N S A T I O N

A STORY THAT ADDS NEW CHAPTERS EVERY TIME. Hidden away in the varied, multi-faceted appeal of marble are stories from the past and present, pulsating with life. A fine line separates the artificial from the natural, when light spreads through and leaves its mark on surfaces strongly bonded with the living styles of the future.

The inspiration comes from Italian Living origin: the distinctive Marble and the deep Fusion Effects, both crossed through by white veins and with a small-medium grain.

The other colors start out from black, gradually shifting through dark and light grey to white. The subtle texture and veins, tempered with a very light white, reminiscent of the night sky in black, give the product a smooth, extremely sophisticated appearance.
